

## Professional Summary

Multidisciplinary product designer with a Computer Science degree and a focus on AI-assisted workflows. Experienced in delivering high-fidelity UX/UI solutions and cross-platform experiences with rapid iteration. Skilled in integrating technical literacy and creative strategy to produce scalable digital products that align with business objectives.

## Work Experience

Graphic Designer (Contract)

Feb. 2026 - Present

OC Mentors

Irvine, CA

Contracted with a tutoring service providing personalized 1-on-1 academic support, college prep, and mentorship for students.

- Conceptualized and executed high-stakes **marketing collateral** and investor pitch decks, directly supporting business scaling and capital acquisition efforts.
- Partnered with the CEO to orchestrate a **comprehensive brand evolution**, establishing a unified design system that ensured visual consistency across all digital and physical touchpoints.
- Directed** design efforts across cross-functional teams to streamline asset production and maintain brand integrity across diverse project workstreams.
- Designed and deployed a high-fidelity website within one week using **AI-assisted tools** to facilitate rapid iteration and consistent brand implementation.

Freelance Designer (Contract)

May 2025 - Sept. 2025

Tec West, Inc.

Santa Ana, CA

Client project with a leading provider of smart mobility infrastructure management solutions.

- Designed and implemented a **standardized Adobe Illustrator template** for 2K+ laminated bin cards, streamlining production and stockroom labeling processes.
- Modified departmental labels and graphics in collaboration with cross-functional teams, improving operational clarity for 30+ staff and ensuring **100% compliance** with workflow standards.
- Managed and color-coded assembly inventory spreadsheets for optimized **visual organization** and accurate cataloging.

Graphic Design Intern

Mar. 2025 - June 2025

Starteryou

Remote

Early-stage startup company that empowers students to advance their careers through professional opportunities and resources.

- Produced **digital content, marketing material**, and social media campaigns across platforms, including **LinkedIn** and **YouTube**, to expand the company's online presence.
- Reported directly to the **CEO** to collaborate on projects and participate in daily stand-ups to drive design initiatives and goals.
- Designed over 60 unique graphics as the **sole graphic designer**, utilizing Figma and Photoshop to improve user engagement and visual brand identity.

UX / UI Design Intern

May 2024 - Sept. 2024

Tanbii

Remote

Startup gaming company developing a mobile application that incentivizes environmental action with digital currencies and rewards.

- Collaborated** with colleagues to design UX and UI concepts for a mobile app, leading to enhanced engagement among **50K+** users.
- Conducted **product research** on other competing games to identify key market opportunities and iterate on the game's development.
- Translated design concepts into actionable deliverables using Figma, including **user flows, visual assets, wireframes, mockups**, and **prototypes**, to align with product vision.
- Presented** new gameplay concepts to the **product manager** during weekly meetings, ensuring alignment with the product roadmap and contributing to strategic direction.
